PHOTOS AND DESCRIPTIONS

Instructions for photos:

- Send images in JPEG (preferably), TIFF, or PDF format (do not crop the photos).
- Send photos using WeTransfer (<https://wetransfer.com>) or equivalent, if the photos exceeds 10 MB.
- Do not incorporate photographs into a Word document.
- Do not send documents that are larger than 10 MB in an email.
- Give a specific indication of the copyright of each photo if you want to see it displayed on the website
- Each photograph must be accompanied by a caption

For these last 2 points, if you think it is necessary, attach a text file (in Word or PDF format)

Only photographs of sufficient quality will be displayed on the website.

Instructions for text:

The gallery of completed projects aims to show buildings which use Douglas Fir, thus demonstrating the relevance of the species in the field of construction. After having described your entire project, please indicate to us the reasons which led you to using Douglas Fir and in what context.

Description:

Give a description of the completed project
Maximum number of characters: 3000
Or attach the architectural survey.

Use of Douglas Fir:

Why was Douglas Fir selected? Which products? Which finishes? How was it used? Details of how it was used in the building.
Maximum number of characters: 500

- Please send your text files in Word or PDF format

SEND YOUR PHOTOS AND TEXT TO: sabrina.pedrono@france-douglas.com
